## Challenge

- Consolidation of Gentran and Mercator logic into SAP PO
- Non-availability of functional and/or mapping specification for development
- Understanding Gentran architecture & mapping rules
- Configuration of custom ANSI X.12 versions
- EDI Compliance Check
- Replicating 50,000+ look up entries in Gentran to SAP PO
- Test files availability for Sanity Check
- Splitting a flat file with multiple partners info to separate EDIs per partner

# EDI Modernization for a Large Chocolate Manufacturer

## Solution

- ✓ Migration of 350+ EDI maps from Gentran to SAP PO for about 30 different transaction types and integration of 450+ trading partners. Consolidation of B2B architecture using standard EDI format i.e. ANSI X12 and EDIFACT.
- ✓ Transformation of various message formats like ANSI X.12, EDIFACT, Plain (Fixed length, pipe delimited files etc.) to IDOC and vice-versa.

## Outcome

- Flexibility for business users to change rules using BRMS (business rule management system)
