Introducing Cherrywork® Resource Management System

Cherrywork® Resource Management System gives you a centralized access to up-to-date, easily searchable profiles of resources skills, interests, experience, language expertise, work preferences, availability, and more, empowering you with the information you need in real-time. Update skills and schedules centrally or allow users to directly manage and update their profiles

Key Capabilities

Eliminate paper based process

- Eliminate the paperwork with digitized process for creation and verification of booking requests.

Improve visibility

- Booking requests history, real-time visibility of resources, exception approvals & status are easily available to the Resource Management Team

Reduce Time

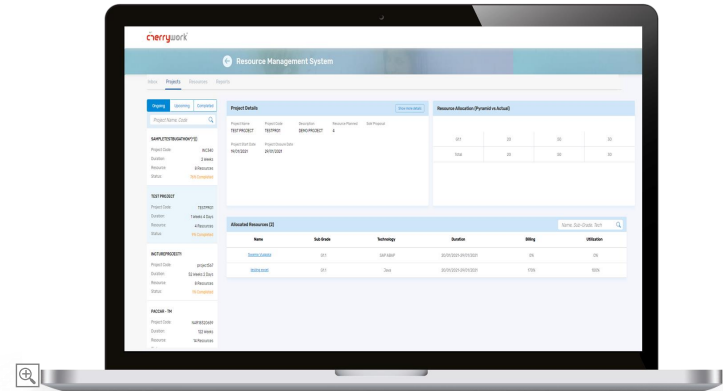

- Reduce the turn-around time to assign resources to a project and invoice processing time

Reduce the Risk of fraud/billing issues

- Integrated with Cherrywork Timesheets to ensure that the billing & utilization is correct

Process improvement

- Process is streamlined with minimal manual intervention, multiple approval workflows for exceptional cases and get Email notifications on new assignments/ projects

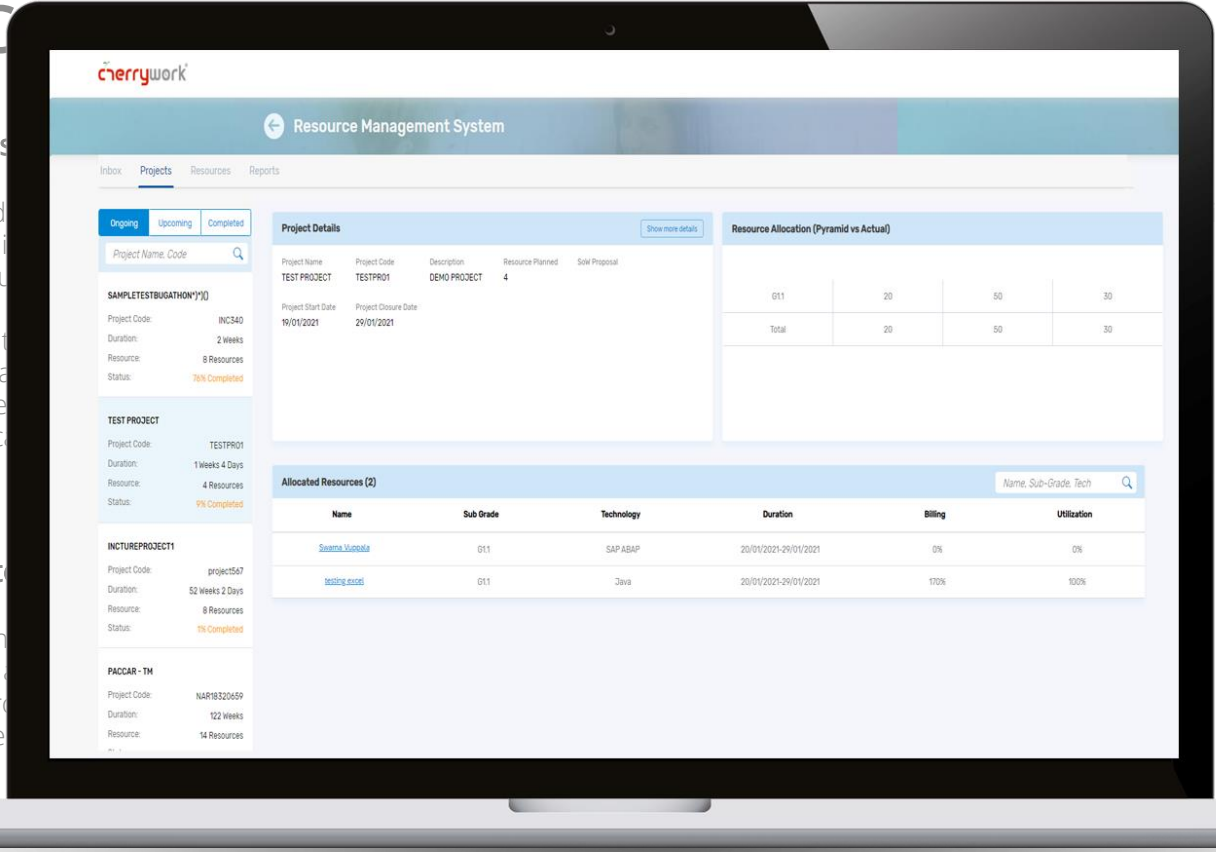

Key Capabilities

Delivering superior user experience

- Increased accessibility and superior user experience across all devices
- Reduced time to market for Human Factors and Usability
- Robust security and authentication

Driving a strong ROI

- Reduction in project costs
- Intended project completion
- Bulk approval of resources using Cherrywork

zed

Key Features & Benefits

Automate Skills & Availability

- Get centralized access to up-to-date, easily searchable profiles of resources skills, interests, experience, language expertise, work preferences, availability, and more, empowering you with the information you need in real-time.

Manage work schedule

- Assign bookings to your teammates based on their expertise and availability.

Plan future projects

- Visibility into your production pipeline allows you to forecast the available employees and plan accordingly.

Key Features & Benefits

Forecast and Report on Resources

- View resource reports to determine staffing needs and improve employee utilization rates. Use robust utilization reporting, including capacity planning (FTE) forecasts and utilization by hierarchy to drive financial forecasts (billings, revenue, margin) off of staffing plan.

Hourly availability

- Part-time employees or freelancers are able to enter their hourly availability. You know exactly how much time they can spend on your project every day.
