

Established in 1975, IFFCO is an international group based in the United Arab Emirates. We manufacture and market a well-integrated range of mass-market food products, related derivatives, intermediates and services.

## Enhancing Productivity with Cherrywork® Intelligent Task Management

### Challenge

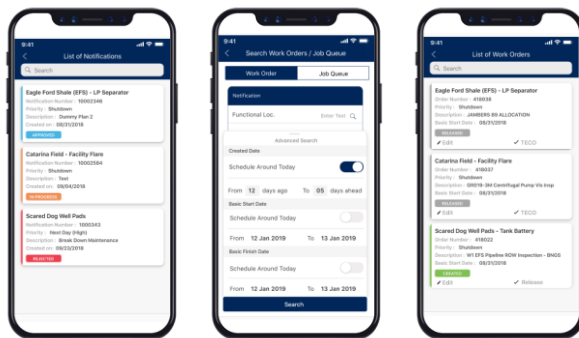

Supervisors need to switch between multiple systems to approve the tasks, leading to delayed decisions and a lot of paper trail

### Solution

Cloud-based application wherein all the systems can be configured and made available in a single unified workbench over different OS platforms for a hassle-free experience

### Outcome

- Productivity gains by providing a unified view for all the tasks
- Easy collaboration between different stakeholders for effective task completion
- Workload management to provide a visual and intuitive view of team's work items
- Enterprise application and integration consolidation leveraging SAP BTP services

20%

Increase in workflow efficiency

1

Unified Workbench brings tasks from multiple disparate and fragmented systems

100%

Supervisors have a holistic view of team's workload

## IFFCO Team Speak

*"Cherrywork® Intelligent Task Management's Unified Workbench feature brings together multiple systems across the enterprise landscape and enables prioritizing of critical work items. The User Workload Management, Task Storyboard, Reports and Analytics capabilities empower our supervisors with the right tools to enhance productivity."*
