Cherrywork® Human Experience Management (HXM)

Challenge

- Issues with the UI of their HR systems
- Responsiveness of web & mobile applications

Solution

- Migration of existing applications to SAP Cloud Platform to build out modular and scalable components
- Platform migration to allow enhanced flexibility and easier maintenance
- Revamped the existing HR applications and built a native mobile application for Android and iOS with Offline functionality
- Unified inbox for approvals has been implemented
- New HR processes have been built using Fiori suite

Outcome

- Highly responsive, intuitive, elegant and fast applications available across different devices

Business Impact

~50% Increase in adoption rate
