

Cherrywork DocuSign Adapter

Accelerate document approvals with seamless SAP Task Center and DocuSign integration

An integrated workflow solution that streamlines document approvals and signatures by embedding DocuSign into a centralized task management platform, enabling seamless coordination, reducing silos, and simplifying signing activities across business processes.

The Key Features

- **Real Time Notifications for DocuSign Tasks** - Instantly alert users when signatures or actions are required to avoid delays.
- **Unified Task Management and Faster Decision Making** - Centralize task visibility to streamline approvals and accelerate decision making invoices.

- **Role-Based Access and Secure Workflow Compliance**- Ensure secure document handling with role based permissions and full audit trails.
- **Seamless Integration with SAP Task Center** - Connects DocuSign workflows directly to SAP Task Center for unified task management.
- **Secure Data Exchange** - Leverages a secure adapter to transmit task related data between DocuSign and SAP environments.
- **Custom-Built Adapter Application** - Built on a robust architecture to handle event processing, task mapping, and data storage efficiently.
- **Support for Multiple API Endpoints** - Provides flexibility to integrate with additional systems and extend functionalities as needed.
- **Improved Operational Efficiency** - Reduces manual follow ups and task delays through automated, intelligent workflow integration and timely remediation.

How Cherrywork DocuSign Adapter transforms your organization

- The Cherrywork DocuSign Adapter integrates DocuSign with SAP Task Center to streamline document signing and approval. It enables real-time task updates, reducing manual work and improving accuracy. The solution enhances compliance through secure data exchange and audit trails while providing a unified interface for better user experience. By accelerating workflows and simplifying task management, it boosts operational efficiency and speeds up business processes.

Why Cherrywork DocuSign Adapter?

- **Quick Implementation** - Comes as a standard solution with preconfigured components, reducing time-to-deploy.
- **Backed by Cherrywork Expertise** - Built and supported by Cherrywork, known for delivering SAP-certified enterprise productivity solutions.
