

Elevate Your Design : Meet the Supplier Integration Tool

Supplier Integration Tool

In today's accelerated design lifecycle, clarity and connection are everything. The Supplier Integration Tool brings designers and suppliers onto one intuitive, visual platform.

Unified Design-to-Supply Collaboration

- Get instant visibility into all design-related procurement activity through a clean, insight-rich dashboard.
- Scan total orders, pending actions, and completed tasks at a glance—no digging, no clutter.

Streamlined Order Management

- Manage the full lifecycle of Purchase Orders in one centralized space.

- Review details, track progress, and exchange updates directly with suppliers.
- Upload and share visual assets—material samples, mockups, refinements—ensuring design intent is never lost in translation.

Purchase Requisition handling directly with Suppliers

- Collaborate with suppliers from the earliest stages through the Purchase Requisition workspace.
- Review sketches and initial specs effortlessly.
- Comment, validate, and align on requirements before production begins—reducing risk and preserving design integrity.

Clear, Continuous Communication

- Keep message threads, notes, and reference files tied to every requisition and order.
- Maintain a transparent trail of decisions and iterations—so nothing gets buried, and every update has context.

Why It Matters for Design Teams

- **Stronger partnerships** with suppliers through shared insight and real-time access.
- **Cleaner execution** by validating specifications early and minimizing rework.
- **Faster workflows** with structured processes and instant updates.
- **Full accountability** with a complete visual record of conversations and iterations.
- **Quicker sampling cycles** by reducing miscommunication and the typical back-and-forth.

The Supplier Integration Tool empowers designers and suppliers to collaborate with speed, clarity, and confidence—built for the demands of modern design execution.

Experience the future of designer-supplier collaboration.
